

Video Tutorial For New Dispensers 2006

Instructor: **Alan L. Lowell BC-HIS, ACA**
Alan Lowell Seminars, Inc.

Recorded: 2004

Format: Power Point / Lecture-Demonstration / Video Recording

Materials: DVD's w / printed Power Point slide presentation

Description:

The Video Tutorial for New Dispensers is a 2-Digital Video Disk (DVD) set with approximately 3 hours of playing time. Our program was professionally filmed with a single camera and is unscripted to create a live on-site seminar experience.

Our presentation blends a combination of Power Point Slides, printed materials and demonstration in a lecture style format that covers content areas listed below. To achieve the most effective and quickest result we recommend that our program be viewed several times while having the course notes, blank audiograms, markers and an audiometer on hand. Practice on yourself, friends and family members.

Outcome Measures

The Video Tutorial for New Dispensers demonstrates the skills and knowledge you must know to begin your career as a Hearing Healthcare Dispensing Professional. Additionally, it will guide and help you safely and confidently begin performing a hearing aid evaluation as soon as possible.

Learning a great deal more about each one of the seminars content areas that follow will be enhanced as your training progresses. Alan Lowell Seminars provides a full-range of professionally recorded seminar programs in the Hearing Instrument Sciences to help you prepare for your state licensing and other competency exams.
